Interests

- IT
- Coding
- Problem-solving

Languages

- Swedish
- English
- Arabic
- Spanish

A recent graduate full-stack developer with a focus on Java development, as well as other programming languages, frameworks, methodologies, etc. I am an organized person with a strong interest in technology and always quick to come up with new ideas. My goal for the future is to work as a software developer in the IT industry.

Work experience

Preschool teacher
[Stockholm stad, Stockholm](#)

jun 2017 - jul 2017

Summer job at a preschool, where the tasks involved taking care of children and their needs. A very educational experience.
